Moab Ut.  
May 10, 1994

Dear Sir.

I have already filled out form MR-SMO! I sent them in with letters of intent, map.

Last year I picked up surface rock (off my lease.) My intentions to do so was made clear to a Jerry Mansfield. I filled out all the forms he sent me - along with a letter of intent ment for the division of oil, gas and mining. I received no reply from them. therefore I assumed my activities did not constitute an act of MINING. Is it indeed illegal to pick up rock?

There are many existing roads - from drilling, mining, government and State surveying. We claimed the tracks that best suited our purpose. (With intent to reclaim.) We did this to state that this was not a designated road.

My lease is also a statement, a claim for my rights to try and live off this land.

I ruined the MR-SMO form you sent me. If you really need another one - please send me another copy plus any other form's you feel are necessary to maintain my lease # 45848  
Sincerely,

James A. Hill
